

The Federal Communications Commission

Dear The Federal Communications Commission,

I do not want to pay more for my telephone service! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable.

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls. I do not make more than one or two long distance calls in a month. It is unfair to force small users like me to pay the same amount as large businesses.

I use a "pay as you go" wireless phone for safety, and convenience. I don't want to give up these benefits so that big businesses can pay less than their fair share. I urge you to REJECT the proposal to move the USF collection system to a flat-fee.

Keep it Fair!

Sincerely,

C Juliana
